# Materials Declaration 2019

## CONFLICT MINERALS DECLARATION FOR THE DODD-FRANK ACT

Burnett & Hillman fully supports the compliance with provisions of Section 1502 of the DODD-FRANK ACT pertaining to the use of Tin, Tantalum, Tungsten & Gold, as well as any other derivatives thereof determined by the United States Secretary of State (Designated Minerals) originating from the Democratic Republic of Congo (DRC) and neighbouring countries.

Burnett & Hillman are currently unaware of any of these Designated Minerals being used in our products. Raw material stock is Bright Steel to either 11SMnPb30 or 11SMnPb37 Standard as is therefore devoid of Conflict Minerals.

Please be assured that Burnett & Hillman will carry out adequate diligence to ensure that no Conflict Minerals will be present in our products.

## REACH and RoHS (3) Compliance Declaration

Burnett & Hillman are dedicated to supplying high quality hydraulic adaptors that meet environmental regulations including RoHS (Restriction of Hazardous Substances) Directive 2002/95EC and RoHS2 Directive 2011/65/EU. This declaration incorporates EU2015/863(RoHS3).

REACH (Registration, Authorisation and Restriction of Chemicals), EU Regulation (EC) 1907/2006.

Unless otherwise agreed all materials used for parts, manufactured or supplied by Burnett & Hillman after February 2006, comply with the relevant RoHS and REACH threshold limits.

### RoHS Compliance

- Hexavalent Passivate has been replaced by Trivalent Passivate (currently MacDermid HydroKlad 500)
- Free machining leaded steels used for parts contain max 3500ppm Lead (typically 2800ppm)

### REACH Compliance

- Under the structure of REACH regulation Burnett & Hillman are manufacturers and suppliers of 'articles' to our customers, we do not manufacture 'substances' or 'preparations' and our articles do not involve the 'intentional release of substances'. Accordingly, we foresee no registration or pre-registration requirements for the products we currently supply.
- Burnett & Hillman will monitor products supplied for the occurrence of 'Substances of Very High Concern' (SVHC), as defined by REACH. This will be an ongoing process as the complete list will be released in stages.
